

# FUNKTION-ONE

## RESOLUTION 2

This portable 'full-range' system is probably the smallest fully horn loaded enclosure available. Its unique combination of compact size, weight and sonic excellence, make it equally suited for use by discerning musicians as well as by sound consultants in demanding projects. From small to medium club venues to critical AV and pro sound reinforcement applications, this loudspeaker system resolves the requirement for quality, response and level from a small source. The Resolution 2 is increasingly acclaimed as the dj monitor of choice. If even more bass 'weight' is required, a pair of Resolution 2s can be used with additional Funktion One bass including Infrabass, F218s and F121s.

### Features:

- Full range, stand alone enclosure
- Fully horn loaded
- Three-way bi-amped
- Controlled dispersion
- Minimal size and weight
- Funktion One designed drivers
- Stunning aesthetics
- Complete range of flying and mounting options
- Optional Wheelboard
- Optional fine cloth scrim grill in grey or black
